

H.W

1) Find the frequency counts for the following

(i) for ($i=1; i \leq n; i++$);

printf("Hello");

(ii)

$i = 1;$

$i = i + 20;$

printf("%d", i);

```
(iii) i = 1;  
while (i <= n)  
{  
    printf("%d", i);  
    i++;  
}
```

1) Frequency Count:-

(i) for ($i=1; i < n; i++$);
printf("Hello");

$i=1; i < n; i++ \rightarrow 1+1+1 = 3$

print

$\rightarrow 1$

Total 4

(ii) $i = 1; \rightarrow 1$

$i = i + 2 \rightarrow 1+1 = 2$

printf("%d", i) $\frac{-1}{4}$

(iii) $i = 1; \rightarrow 1$

while ($i \leq n$) $\rightarrow n+1$

{

printf("%d", i); $\rightarrow n$

$i++$;

$\rightarrow n$

}

} $3n+2$
